## Ex. 6 Personal Privacy (PP)

**Subject:** Re: VB/I-70 Superfund Site Quarterly Public Update Meeting - Mark your Calendars

It is too bad that the EPA does not recognize the need to attend monthly CAG meetings as they seem to do in most other places in CO and the country.

The CAG has many unanswered questions for EPA and has asked for documents that have not been delivered. The role of the CAG is to be a part of the EPA process before decisions are made or reports are issued.

Joan, this goes back over a year now. EPA determined that after the GLO removal action was completed, there was no longer a need for monthly meetings. EPA switched to a quarterly format to better match the pace of site activity. The CAG, as I think you know, still meets monthly. EPA hosts a quarterly meeting for not only the CAG but for other interested members of the public as well every third month (quarterly). The EPA quarterly meeting takes the place of every third CAG – only meeting. The quarterly meetings have been advertised in the Denver Your Hub (though this time we're trying something new and trying to list it in the Denver Post Your Hub events calendar section). The quarterlies are also advertised on the EPA Website and EPA Facebook page. I am also going to put a flyer up at the library this afternoon or Monday morning. Finally, as always, we expect CAG members to advertise the meeting through their neighborhood channels. The CAG Administrator reviewed the agenda. We will have a presentation at the meeting, which we can distribute after but there is nothing available to distribute before.

Jennifer,  
Would you clarify why EPA is presenting "hosted" quarterly meetings for the community? Do you advertise publicly in local papers etc.? I don't see an update section for the VB/I-70 CAG Administrator?

Are the current reports or fact sheets being distributed ?

Thanks,  
Joan Seeman
